

Medical Physicist/MR Scientist

The medical physicist/MR scientist:

- Must be familiar with the principles of MRI safety for patients, personnel, and the public; the Food and Drug Administration's guidance for MR diagnostic devices; and other regulations pertaining to the performance of the equipment being monitored.
- Must be knowledgeable in the field of nuclear MR physics and familiar with MRI technology, including function, clinical uses, and performance specifications of MRI equipment, as well as calibration processes and limitations of the performance testing hardware, procedures, and algorithms.
- Must have a working understanding of clinical imaging protocols and methods of their optimization. This proficiency should be maintained by participation in continuing education programs of sufficient frequency to ensure familiarity with current concepts, equipment, and procedures.

The qualified medical physicist/MR scientist is responsible for the conduct of all surveys of the MRI equipment. The medical physicist/MR scientist may be **assisted** by properly trained individuals in obtaining data. These individuals must be approved by the medical physicist/MR scientist in the techniques of performing tests, the function and limitations of the imaging equipment and test instruments, the reasons for the tests, and the importance of the test results. The medical physicist/MR scientist **must be present** during the surveys; review, interpret, and approve all data; and provide a report of the conclusions **with his/her signature**. Effective **January 1, 2010**, all medical physicists/MR scientists providing these services **must** meet the following minimum criteria:

Qualifications	Medical Physicist	MR Scientist
Initial	<p style="text-align: center;">Board Certified</p> <p>Certified in Diagnostic Radiological Physics or Radiological Physics by the American Board of Radiology; in Diagnostic Imaging Physics or Magnetic Resonance Imaging Physics by the American Board of Medical Physics; or in Diagnostic Radiology Physics or Magnetic Resonance Imaging Physics by the Canadian College of Physicists in Medicine</p> <p style="text-align: center;">OR</p> <p style="text-align: center;">Not Board Certified in Required Subspecialty</p> <ul style="list-style-type: none"> • Graduate degree in medical physics, radiologic physics, physics, or other relevant physical science or engineering discipline from an accredited institution, and • Formal coursework in the biological sciences with at least <ul style="list-style-type: none"> - 1 course in biology or radiation biology, and - 1 course in anatomy, physiology, or similar topics related to the practice of medical physics • 3 years of documented experience in a clinical setting <p style="text-align: center;">OR Grandfathered</p> <p>Conducted surveys of at least 3 MR units between January 1, 2007 and January 1, 2010</p>	<ul style="list-style-type: none"> • Graduate degree in a physical science involving nuclear MR (NMR) or MRI • 3 years of documented experience in a clinical MRI environment
Continuing Experience	Upon renewal, 2 MRI unit surveys in prior 24 months	
Continuing Education	Upon renewal, 15 CEU/CME (1/2 Cat 1) in prior 36 months (must include credits pertinent to the accredited modality)

THIS CERTIFIES THAT:

MICHAEL FLETCHER

HAS SUCCESSFULLY COMPLETED THE PROGRAM ENTITLED:

HANDS-ON MRI WORKSHOP FOR PHYSICISTS

September 21 - 23, 2018 | Cleveland, OH

This workshop provides 21.25 hours of continuing education in MR Imaging.
Approval has been received from CAMPEP for up to 21.25 hours of Medical Physics Continuing Education Credits (MPCEC'S) which includes 1 hour of Mammography credit.

This program has been approved for 20 hours of Category A continuing education credit for Radiologic Technologists recognized by the ARRT and various states.

Letter of Attestation

January 1, 2010

To the American College of Radiology:

This is to certify Michael Fletcher has performed more than three MRI evaluations for ACR accreditation from 2007 to 2010. He meets the ACR requirements to perform MRI accreditation physics testing.

Sincerely,

Jodi Daves, M.S. dABR

Notary Public, State at Large, KY
My Commission expires November 9, 2014

Letter of Attestation

September 20, 2016

To the American College of Radiology:

This is to certify Michael Fletcher has performed more than three MRI evaluations for ACR accreditation from 2007 to 2016. He meets the ACR requirements to perform MRI accreditation physics testing.

Sincerely,

Jodi L. Daves

Letter of Attestation

September 20, 2019

To the American College of Radiology:

This is to certify Michael Fletcher has performed more than three MRI evaluations for ACR accreditation from 2017 to 2019. He meets the ACR requirements to perform MRI accreditation physics testing.

Sincerely,

Jodi L. Daves M.S. dABR
